

VILLAGE OF EDGERTON LIBRARY BOARD

PHILOSOPHY

The Village of Edgerton Library Board believes that the library should meet the recreational, educational, and cultural needs of the community. Board members should be willing to help with the planning and development of services which may be connected with meeting such community needs. The Board should provide the opportunity for cooperation among the public, other libraries, and government agencies. The Board should also assume responsibility for efficient handling of financial business and for public relations.
